

July 2 2020

I am grateful to the Hartford Police Department for recent help.

Monday, June 29 I locked the keys inside my truck at the Walmart parking lot, The service desk called the non-emergency number for me, The dispatcher said I might have to wait as officers were attending a car fire caused by a lightning strike,

Groceries in the truck bed, rain becoming heavier,

An officer responded in 10 minutes, His air tool was not working so he called another young cop and asked me to wait in his vehicle, Both officers stood in the rain until they had the truck door open, I was free to leave,

The point of this thank you is to commend those 2 gentlemen for their non-judgement kindness,

In this day of cop stories that don't accent the positive, I had a quick fix and kind response from police, I did not get their names, too relieved to be on my way in 30 minutes, Please extend my appreciation to the 2 officers,

Sincerely
